## **Project Manager/ General Manager**

Designveloper | Software Development Company

Feb 2018 - Feb 2020 (2 years 1 month)

Managing a company of 50 for overall software development including receiving reports from project leaders, resource managing, resource training, project approaching, overall customer satisfaction managing.

Being one of the executive board members, I'm also in charge of building and maintaining company culture, ensuring everyone marching in the same direction.

## **Solution Architect/ Project Lead**

Designveloper | Software Development Company

Aug 2017 - Dec 2018 (1 year 5 months)

Company has been in the stage of restructuring, so I with three other core members have responsibilities for the team reorganization, policy changes and core values direction. Each of us takes an critical role in the company's structure. While others have the roles of QA manager, Research manager, Sell/Marketing manager, I'm in charge of managing other project leaders and the company's resource. I also spend half of the day coding as a fullstack developer.

## **Full Stack Developer**

Designveloper | Software Development Company

Nov 2016 - Dec 2018 (2 years 2 months)

Switching from a product company to an outsourcing company is my choice to experience various projects as well as various software development methodologies. In Designveloper I has improved my skills in testing, scaling with million-users system, critical thinking, customer communicating and human resource issue resolving.

## **Hacker and key member**

Namssoft Consulting

Aug 2015 - Oct 2016 (1 year 3 months)

Being a part of a startup is one of the most exciting thing I have experienced.

As a key member, I'm in charge of:

- Suggest and research new technology and architecture to apply for out products
- Design database
- Planning and breakdown tasks
- Develop products (web app, mobile app)
- Leading mobile team and training for new guys

## **Software Developer**

Petrovietnam Trading Company (PETECHIM)

Jan 2014 - Jun 2015 (1 year 6 months)

Joining a big group is a chance for a graduated student. Working for the IT department, I switched between many positions:

- Develop internal tools for managing document and email, integrate with existing office system to report daily task.
- Suggest and research solution for dynamic report and big data.
- Research and deploy solution for asset management.
- Developer for Oil and Gas Station Management Project
- Developer for Port and Warehouse Management Project.

## Education
