

# Agreement

I, [ ] (the “Researcher”), hereby request a copy of the Fudan MOSS model checkpoint (the “model”) trained by the NLP Lab at Fudan University, China. The model is a (tool-augmented) conversational language model. In exchange of the model access, I fully agree on the following terms and conditions with complete understanding:

1. Researcher understands that the copyright of the model fully belongs to its owners. In no event, shall Fudan University be liable for any incidents, or damages caused by the direct or indirect usage of the model by Researcher.
2. Fudan University makes no representations or warranties regarding the model, including but not limited to warranties of non-infringement, merchantability or fitness for a particular purpose.
3. Researcher shall defend and indemnify Fudan University, including their employees, Trustees and officers, and agents, against any claims arising from Researcher’s use of the model.
4. If Researcher is employed by a for-profit, commercial entity, Researcher’s employer shall also be bound by these terms and conditions, and Researcher hereby represents that he or she is fully authorized to enter into this agreement on behalf of such employer.
5. Researcher may provide research associates and colleagues with access to the model provided that they have also agreed to be bound by the terms and conditions stated in this agreement.
6. Researcher shall properly cite the given reference whenever the model is used.
7. An electronic document with electronic signature of Researcher has the same legal effect as a hardcopy signature.
8. Fudan NLP Lab reserves the right to terminate Researcher’s access to the model at any time.
